## EQUIPMENT AND TECHNOLOGIES FOR THE OIL AND GAS INDUSTRY

12+

**NEFTEGAZ –**  
Russia's largest oil  
and gas show

**449 exhibitors from  
23 countries**

**21,000+  
professional visits**

**45,766 sq. m  
gross –  
exhibition space**

Among the world's top 10 oil  
and gas trade shows

---

German and Czech national  
pavilions

---

**36** key industry issues

---

**750** delegates and **120** speakers  
at the National Oil and Gas Forum

---

**188** federal and industry media  
representatives

## Main product sectors

The Neftegaz exhibition is a meeting place for suppliers and consumers of equipment, services, solutions and technologies for all stages of hydrocarbon exploration, production, storage, transportation and processing

Oil and gas exploration

Oil and gas field development

Equipment and technology for offshore field

Oil, gas, oil products gathering, transportation and storage

LNG: production, transportation, distribution and use, investment

Specialised vehicles to transport petroleum

Oil and gas processing, petrochemistry

Delivery and distribution of oil, gas, petroleum products

Equipment for gas terminals, oil depots, filling stations

Service, maintenance equipment and technology

ACS, test equipment

IT for the oil and gas industry

Electrical equipment for fuel and energy sector

Safety at oil and gas facilities

Occupational health and safety, safety systems, fire prevention equipment

## Sponsors and partners

## Russian companies

B&R Industrial Automation, Burintekh, Volgogradneftemash, VSMPO-AVISMA Corporation, Velan, Gazprom, GEA Refrigeration Rus, Goreltex, MIPT Centre for Engineering and Technology, Caspian Pipeline Consortium, Kolomensky Zavod, NPO-MIR, Nefteservispribor, NKMZ-Group, the Aluminium Association, ODK, OKB Zenith, OMK, KAMAZ PAO, Pergam-Engineering, Petroviser, Prosoft Systems, the Gubkin Russian State University of Oil and Gas, SibBurMash, Siberian Industrial Group, Sintek, SNG, Tagras Holding, Tekknow, TMK, TMS Group, Transneft, Trem Engineering, Tyazhpresasmash, Fidmash, Fluid Line, Cheboksary Electrical Apparatus Plant, CHETA, Electroshield Samara, Energomash, Total Vostok and others.

## Foreign companies

Draeger, Electric, KAMAT GmbH & Co. KG, Enerpac B.V., Enotec GmbH, Siemens, H. BUTTING GmbH & Co. KG, Hydac International 000, KROHNE, LafargeHolcim, Leistrizt Pumpen GmbH, Medenus Gas-Druckregeltechnik GmbH, Phoenix Contact, Pleuger Industries GmbH, Rhyton Solutions GmbH, Samson Controls 000, Sorb® XT, Schneider Klöpper-Therm Vertriebs GmbH, Sumitomo Corporation, VEGA Grieshaber KG, Walther-Präzision and others.

## Participating countries

Austria

## Participants' feedback

**Svetlana Korolyova, Head of the Image Event Department**

– Transneft traditionally takes part in Neftegaz. For the first time this year, our stand features new 3D technologies, with which we demonstrate, among other things, pumping equipment. This year there is a large number of visitors to the exhibition. I would like to make a special mention of the excellent organisation. We plan to take part in Neftegaz in the future.

**Daniil Tarasov, Deputy Development Director**

– Neftegaz is a meeting place for key players in the oil and gas industry. This is the tenth year our company has participated. We present our products and we are very happy that this year's exhibition's taken place. For us, as a producer from the Russian region, it's an opportunity to meet our colleagues and consumers of our products, to show production novelties and expand business contacts. Every year, we try to bring something new to the Neftegaz exhibition – new developments and modifications. The exhibition gives consumers of our products an opportunity to ask all their questions and get advice from our leading experts.

**Antonina Dushkina, Marketing Manager**

– At this year's Neftegaz, we're seeing a very professional, tech-savvy audience. Visitors come to us with targeted enquiries, interested in the latest innovations in hazardous gas control technology and our personal protective equipment. We're pleased to participate in the 20th Neftegaz anniversary exhibition, being a partner this year. For us, this is one of the key industry events and essential networking opportunities. That's why we've already decided to participate next year as well.

**Irina Korneva, Head of the Exhibition Activities Department**

– Our company is a regular exhibitor at this show. This year we've tried to make our stand as full as possible. The exhibition's attracted a maximum number of visitors. The exhibition is bright, attracting visitors with its unconventional approach. There are a lot of attractive stands. And our stand is one of them.

**Dmitry Alaev, Head of Contract Management**

– Seven divisions of Tagras Holding, which are engaged in seismic surveying, geophysics, drilling, well repair, and maintenance of surface and underground pumping equipment, are represented at the stand. We're satisfied with our work at the exhibition. We see a huge number of visitors who are greatly interested in our company's products and services. We were very pleased to see our colleagues from all over Russia at our stand today. They visit the trade show and take an active part in our stand. We wish the exhibition to continue its development.

**Ekaterina Kurbanova, Marketing Department Head**

– To be honest, we weren't expecting such a large number of visitors, but our fears were not confirmed. It was the target customers who came to see us. We have received requests for information on the equipment we exhibit here from our target customers. We plan to take part in the next Neftegaz exhibitions as well. Neftegaz is, after all, our flagship event every year, and there is no way we can miss it.

**Mikhail Martynov, Vice President on Business Development**

– This is not the first time Electroshield Samara has participated in Neftegaz. This exhibition is very important for us, as it's one of the few events in the current coronavirus times when you can really network with customers, meet with them, and show novelties. And of course, the opportunity for such live communication is particularly valuable. This year is the anniversary exhibition. We wish the visitors and exhibitors to make the most of the event.

Welcome

to Russia's major oil and gas show!
