CONFERENCE PROGRAMME

INLEGMASH International Industry Conference:

An effective discussion platform to identify industry trends, find suppliers and new sales channels for textile and garment industry equipment and technology

DIGITAL FACTORY (jointly with SMART-T)

INLEGMASH 2021 introduced a new unique project Digital Factory, which was a real prototype of a working digital textile factory. Throughout the exhibition, a separate stand demonstrated the full cycle of modern digital apparel production from design and printing to cutting and sewing of finished garments. This allows all aspects of modern digital production to be clearly demonstrated to industry professionals.
