 **EXPOCENTRE**

TECHNOFORUM IS

- a demonstration of production processes from cutting-edge research in various industry sectors to pilot and series production of finished products
- an open platform for research discussions, creative experiments, educational projects and intellectual endeavours
- a centre for the popularisation of science for schoolchildren, students and young professionals

Organised by

Supported by

Under auspices of

8,060 visitors

from **20** countries

134 exhibitors
from **15** countries

2,548 sq m
of exhibition space

PRODUCT SECTORS

Additive manufacturing, 3D printing

Welding and related technologies

Robotics and industrial automation

Heat treatment

Industrial ecology

Integrated systems of science-driven high-performance production machinery for retooling of production facilities of basic processing industries

Metal structures, sheet metal working, coated sheets

Retrofitting

Machine tool systems and forming equipment for processing of metal, wood, stones, composite materials, polymer materials, etc.

Equipment and technology for production and installation of metal structures

Professional education, information materials, research and technical literature

FEEDBACK

Vladimir Kononov, Deputy Chair at the Russian State Duma Committee on Science and Higher Education, Chairman at the Organising Committee of NTI Expo

“Russian Industry Week will showcase the innovative developments and ideas in the field of industrial equipment and technology most in demand by sectors of the Russian economy, enabling them to effectively demonstrate breakthrough solutions.”

Sergey Katyrin, President at the Chamber of Commerce and Industry of the Russian Federation

“TechnoForum and its conference programme give industry professionals every opportunity to learn about innovative developments and ideas in the materials processing and to select the right tools and equipment for specific production tasks. I am positive that TechnoForum will showcase a wide range of tools for technical re-equipment of production facilities, and modernisation of Russian enterprises.”

Dmitry Pristanskov, State Secretary and Vice President for GR, MMC Norilsk Nickel

“Russian Industry Week is the only exhibition of its kind bringing together different industries. In our opinion, it is one of the most effective communication platforms offering great opportunities to sharpen the companies’ competitive edge. The exchange of best practices on using innovative equipment and advanced technological solutions in key areas of heavy industry will give a powerful impetus to many companies’ operational upgrades.”
