# FROM 2023, MIR STEKLA TO BE PART OF RUSSIAN CONSTRUCTION WEEK

**The main objective of Russian Construction Week** is to unite the exhibition and convention potential of the Russian construction industry to implement state programmes and national projects, programmes for the renovation of the housing stock, the formation of a modern urban environment, and the digitalisation of the construction industry.

“Opening the conference programme of this important event for the entire Russian construction industry, I would like to note the current relevance and importance of the dialogue on this platform, which brings together representatives of the authorities and the construction business to discuss issues affecting the further development of the construction industry, and as a result, improving the overall standard of living of our citizens. The importance of such a dialogue is extremely high. It is today, when despite the economic situation, we are still faced with historically ambitious tasks to achieve the strategic national goals we have to move forward. I am convinced that the construction industry must continue as never before to create new things, despite the difficulties of the current situation”.

**Marat Khusnullin,**  
*Deputy Prime Minister of the Russian Federation*

“The event began with a plenary session with the top officials of the Russian construction industry, with a welcoming speech and an assessment of the situation by Marat Khusnullin, the Deputy Prime Minister who supervises this sector. I would like to note that EXPOCENTRE has perfectly prepared its space and provided assistance to the developers, participants in the conference programme. And as always, it is a pleasure to be here at EXPOCENTRE Fairgrounds with a full-fledged support”.

**Sergey Lyovkin**  
*Head of the Moscow City Urban Planning Policy Department*

**A number of exhibition and convention events dedicated to the construction industry, covering a wide range of issues**

**RosBuild International Exhibition for Building & Finishing Materials and Technologies**

**Mir Stekla International Exhibition**

**Salon of Low-rise House Construction**

**Building the Future of Russia Together Forum**

# MIR STEKLA

Russia's largest trade show in the glass industry

## Sergey Katyrin, President of the Russian Chamber of Commerce and Industry

"I am positive that the participants in Mir Stekla 2022 will not only be able to have a fruitful conversation and discuss the urgent tasks facing the industry, but will also make full use of the exhibition's great potential to find promising suppliers and partners, build optimal logistics, and introduce their products to new sales markets".

## Efim Basin, Chairman of the Russian Chamber of Commerce and Industry Committee on Entrepreneurship in the Construction Sector

"At present, it is the glass industry that meets all the latest requirements in terms of environmental friendliness and technology. It is encouraging to note that more than 95 % of glass production takes place in Russia. In this way, the import substitution programme has been fulfilled to the maximum extent possible".

## Piotr Sychev, Chairman of the Glass Union Presidium

"Today, the economy of the Russian Federation is undergoing a period of transformation, with import substitution playing a major role. Against this background, the Mir Stekla exhibition can become an effective platform for both Russian companies and foreign partners planning to develop their business in the Russian Federation".

**RUSSIAN  
CONSTRUCTION  
WEEK**

**In 2022 Russian  
Construction Week  
was visited by**

**369** developers  
from **72** cities

# PRODUCT SECTORS

**Glass production**

**Scientific research,  
design engineering**

**Glass processing  
and finishing equipment  
and technologies**

**Glass storage  
and transportation**

**Glass products**

**Associations,  
professional  
organisations**

**Tools, auxiliary equipment**

**Art and decorative  
glass, stained glass.  
Art Glass salon**

**Measurement, testing  
and control equipment**

# VISITOR INTERESTS

## Participation in Mir Stekla is face-to-face networking with major customers

- 33 Glass production
- 32 Glass processing equipment, tools and technology
- 28 Architectural, window, interior glass
- 24 Raw materials for glass production
- 24 Insulating glass, windows, doors, facades
- 19 Components for translucent structures
- 19 Interior glass
- 18 Architectural designs and solutions
- 15 Innovations, R & D
- 12 Tools, auxiliary equipment and materials
- 11 Paints, enamels, glass decorating materials
- 11 Packaging

- 9 Food glassware
- 9 Testing and control equipment
- 7 Transport and storage
- 7 Art Glass salon
- 7 Technical glass
- 7 Solar glass
- 6 Medical glass
- 6 Industrial safety, ecology
- 5 Automotive glass, tinting
- 5 Glass recycling
- 5 Software
- 4 Greenhouses, glazing materials
- 4 Foam blocks, fibreglass, glass blocks

BE THE FOCUS OF ATTENTION OF THE MIR STEKLA VISITORS

# CONFERENCE PROGRAMME

Mir Stekla features conferences, workshops  
and panels on relevant topics and key industry issues

Answers to the most  
relevant industry  
issues

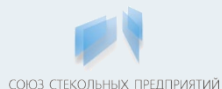

Exchange  
of information  
and expertise

Networking  
with market leaders  
and experts
