PARTICIPANT FEEDBACK

IVAN MISHAKIN

**Deputy Director General for Sales
at Electroshield Samara**

"In our country, the Neftegaz exhibition, held at Krasnaya Presnya, is the main key trade fair where all representatives of the oil and gas industry come. Such an event should certainly be enjoyed. If your goal is to be successful in the oil and gas market and be a recognisable brand in the Russian oil and gas industry, then you should definitely attend this exhibition. See you at Neftegaz next year, 2024."

www.neftegaz-expo.ru/en

ANDREY MASLAKOV

**Marketing Director at Uralmash Oil
and Gas Equipment Holding**

"At this exhibition, we meet our regular customers and find new ones. To exhibit at such events is to talk about our developments, our equipment and to help clients choose the proper equipment. I would like to thank the organisers of the exhibition for the excellent business atmosphere. This is the most large-scale trade show for the last five years. There are a lot of new companies. We feel comfortable here. We will continue taking part in the exhibition."

ALBERT BAISHEV

**Head of Industrial Electronics
at AvalonElektroTech**

"We have been participating in the Neftegaz exhibition for decades, presenting localised products used in the oil and gas industry. The trade show is about maintaining business ties, showing what we can present in the market now. This is the most important industry for us. We will always participate in this exhibition."

DMITRY IVANOV

**Head of Commercial
Department at REMAN**

"This edition is bigger than last year. Our stand is twice as big. We have three times as many visits from our customers, both existing and potential. Neftegaz provides live communication. We discuss all the problems that have arisen since 2022 and solve them together. Our participation is a way of saying that we are on the market, we have not left it, and our partners see and understand that it is possible to do business with us."
