FEEDBACK OF EXPERTS AND EXHIBITORS

Tatiana Gigel, Chair at the Advisory Council on the Timber Industry, member of the Russian Federation Council Committee on Agrarian and Food Policy and Environmental Management

“The exhibition and its conference events allow for a full analysis of the timber industry. It is an opportunity for company managers to show what they have achieved and also to highlight the problems that need to be solved.”

Ivan Dementyev, CEO at Nanxing.ru

“We have been preparing for this show for a very long time. We have brought interesting machines, heavy machines that we haven't exhibited before. We presented the most sophisticated technological solutions. The important event was that major furniture manufacturers came from every corner of Russia, even the most remote ones, and were very interested in buying equipment. To be honest, we did not expect such a demand. All the equipment was sold out in the first two days.”

Yuri Khokhlov, Director of Technical Policy at KAMI

“Lesdrevmash is a milestone event for us. We have been taking part in it for 28 years, and it has always been very fruitful. Visitors come here not only from our country, but also from neighbouring countries.”

Pavel Baskakov, Sales Director at LIGA

“This year, LIGA participated in a new format. Our stand was located in Pavilion No. 8, where we demonstrated state-of-the-art solutions for furniture manufacturers for four days. It was a very convenient format, which was also appreciated by our visitors. The work was very comfortable, and the interaction with EXPOCENTRE was at the highest level.”

Andrey Samsonov, CEO at Felder Group Russia

“This year Felder traditionally participates in Lesdrevmash. It is not only a platform where we show our state-of-the-art equipment models, but also a platform for concluding contracts.”
