ALL THAT CHEMISTRY NEEDS

- Chemistry & petrochemistry raw materials
- Laboratory equipment
- Pumps, valves & machinery
- Research & Development, Digitalization
- Software & IT
- Logistics & storage
- Services and consulting

CHEMISTRY YOU NEED

- Chemicals for oil extraction and mining
- Chemicals for agriculture
- Corrosion protection technologies
- Chemistry for medicine, pharmaceuticals, perfumery and cosmetics
- Green chemistry and biotechnology
- Chemicals for water purification and conditioning
- Chemicals for mechanical engineering (including automotive industry)
- Household and professionals chemicals
- Chemicals for textile and garment industries
- Innovations and advanced materials
- Chemicals for construction
- Chemical products for other industries
- Chemicals for electronics and electrical engineering

FACTS & FIGURES

Khimia: the best exhibition, according to the event audit

A recognised platform for implementation of the New Materials and Chemistry National Project of Technological Leadership

20,000+ sq. m
of exhibition space

520
exhibitors from
8 countries

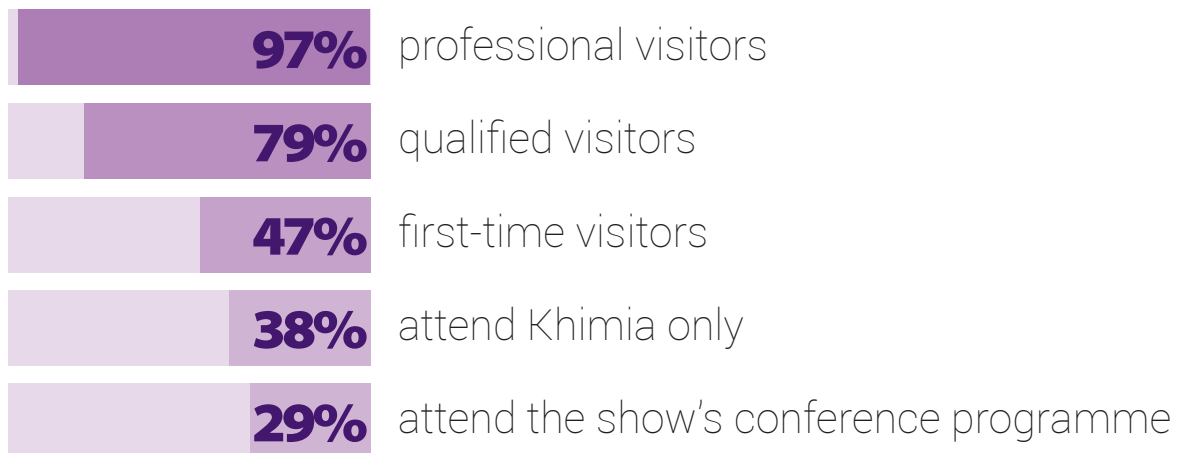

16,000+
visitors from 40 countries
and 81 regions of Russia

WHY PARTICIPATE?

VISITOR INTERESTS

- 51% Raw materials for chemical industry
- 37% Analytical and laboratory equipment and instruments
- 35% Polymeric materials
- 28% Paints, varnishes, coatings
- 28% Chemical reagents, catalysts
- 25% Basic and inorganic chemistry
- 25% Laboratory furniture, glassware and consumables
- 24% R&D, new technologies
- 23% Production equipment, manufacturing lines and machines
- 22% Additives and filler agents
- 22% Raw materials for petrochemical industry
- 21% Industrial pumping and compressor equipment
- 21% Test equipment, instruments and automatics
- 20% Specialty chemicals
- 19% Oil and gas refining and petrochemicals
- 16% Laboratory research automation facilities
- 15% Wastewater treatment, conditioning and purification, chemical safety
- 14% Agrochemicals, fertilisers, crop protection products
- 14% Industrial valves, actuators and engines
- 14% Raw and auxiliary materials for production of polymeric materials and rubbers
- 14% Containers and packaging
- 12% Chemical yarns and fibres
- 12% Engineering and automation
- 11% Recycling and waste management, environmental protection
- 11% Corrosion protection coatings
- 11% Technologies and equipment for production and processing of polymeric materials and rubbers
- 10% Plastics and rubber products
- 9% Waste recycling
- 9% Consulting, research
- 8% Education and trainings
- 8% Equipment and technologies for corrosion protection and corrosion resistant materials
- 7% Designing, assembling, operation and servicing. Leasing
- 7% Specialised literature, industrial web-portals. Investment, credit, insurance, banking services
- 7% Industrial gases
- 7% Software, IT
- 6% Licensing, certification
- 6% Jobs and career opportunities in chemical and petrochemical industries
- 6% Start-ups and SMEs
- 6% Supercritical technologies, new synthetic methods and other green chemistry technologies
- 6% Industrial biotechnologies
