VISITORS BY INDUSTRY SECTORS

VISITOR INTERESTS

RAW AND AUXILIARY MATERIALS, INTERMEDIATE GOODS

Natural and synthetic rubber	28%
Elastomeric materials, e.g., thermoplastic elastomers, composite materials	17%
Chemical fibres and yarns, technical textile	12%
Other types of raw materials and auxiliaries	12%
Latex	9%
Synthetic and metal cords and other materials	7%

EQUIPMENT, INSTRUMENTS AND TOOLS

Tire fitting equipment	13%
Molds	13%
Rubber mixing equipment	11%
Molding and vulcanizing equipment	10%
Test equipment and devices	9%
Equipment for retreading and recycling of worn tires	8%
Other types of equipment	6%
Equipment and tools for production of tire tubes	4%

FINISHED PRODUCTS

Tires for all types of wheels, tire tubes	31%
General and special purpose rubber goods	16%
Goods made of recycled materials	6%

PACKAGING AND STORAGE

8%

INNOVATIONS, R&D

9%

New technology

13%

New developments and materials for tire and rubber manufacturing

10%

Investments in the tire and rubber industry

5%

ENVIRONMENT PROTECTION, ECOLOGY

4%

Waste recycling in the tire and rubber industry

6%

Low and non-waste technologies

3%

Equipment for environmental pollution control

3%

CONTRACT MANUFACTURING

4%

SERVICES

5%

Transportation and storage

5%

Information support

5%

Engineering, production automation

4%

Design and construction of tire and rubber manufacturing facilities

3%

Software

3%

Certification and standardisation

3%

Education

3%

Leasing

2%

Consulting

2%

Statistics of 2025. Multiple replies possible

ATTENDANCE RESULTS

96% met objectives

94% are satisfied with the number of exhibitors

88% are satisfied with the range of exhibited products

63% took part in the conference programme

61% plan to make purchases post show

40% are considering exhibiting next year

EXHIBITED PRODUCTS

20%

Growth of the range of exhibited products

Statistics of 2025
Multiple replies possible

48%	Tires and related products
24%	Equipment for production of tires and rubber products
20%	Raw materials and supplies for production of tires and rubber products
17%	Rubber processing equipment
16%	Molded and non-molded rubber products
13%	Chemicals and additives
12%	Synthetic rubber
9%	Natural rubber
8%	R&D
7%	Equipment for tire processing
7%	Production of chemical and petrochemical products
6%	Tire fitting equipment
5%	Retreaded tires
5%	Pipes and nozzles of different purpose
5%	Studding equipment
4%	Rubberized fabrics and goods made of them
4%	Cutting of rubber and rubber products
3%	Tire retreading equipment and supplies
3%	Conveyer belts
3%	Test equipment
2%	Transmission belts
2%	Chemical fibers
2%	Equipment for auto repair shops
2%	Metal cords
2%	Software
2%	Information publications
2%	Carbon black
1%	Asbestos technical products
1%	Transport and logistics services

PARTICIPATION RESULTS

95%	are satisfied with the quality of leads
94%	met objectives
90%	are satisfied with the number of leads
85%	would recommend the show to partners and peers
80%	plan to come back next year
63%	work on proposals based on the results of talks at the show
31%	agreed to sign a deal directly at the show

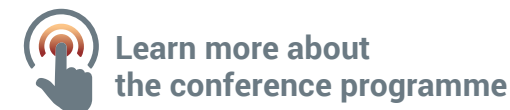

CONFERENCE PROGRAMME

3
days

16
events

915
delegates

Tires & Rubber 2025 hosted a series of events on the industry's strategic development with a deputy minister of industry and trade of Russia and heads of the ministry's chemical industry department

Main topics

- The current state and prospects of the tire and rubber market
- Foreign trade, customs clearance, logistics
- State support for production
- Raw material supply
- Use of waste in road construction
- Issues of product quality and safety, analytical control
- Ecology of production and consumption
