INLEGMASH

TESTIMONIALS

IGOR KIM

**GENERAL DIRECTOR,
SPORTTEX**

"INLEGMASH is once again remarkable. There are a lot of visitors. The stands are wonderful. And there are plenty of new products. I always take part in INLEGMASH. My potential clients come here. I believe that this exhibition is better than the previous ones. Every goal we set will be achieved and exceeded. I decided not to take part in three exhibitions this year, but left INLEGMASH on my list and even broadened the range of exhibits. INLEGMASH is my life, my joy, and I will remain its regular participant."

GADZHI KADIYEV

**HEAD OF THE REPRESENTATIVE OFFICE
IN RUSSIA, JUKI**

"INLEGMASH is a platform distinguished by its stability and a meeting point for industry professionals, new partners and old friends. Today is the first day of the exhibition, and we have already made a number of very interesting contacts with new clients. We are very grateful to INLEGMASH for the opportunity to display our equipment and introduce visitors to quality hardware. I would like to congratulate everyone once again. Fifty-five years is a young age for a serious exhibition. The venue does not matter, what actually matters is people. We communicate with people, we make equipment for people, and people come first. We will follow the exhibition wherever it goes. This exhibition manages to maintain its brand, the high brand of European and world level. Thank you all very much."

IVAN NAUMOV

**DEVELOPMENT DIRECTOR,
MATEK**

"MATEK welcomes all colleagues and exhibitors at the 55th anniversary edition of INLEGMASH. This is the place where we, equipment suppliers, can demonstrate the latest technologies and solutions. MATEK is a representative of the Japanese company Yamato. Thanks to the conference programme of this exhibition we can demonstrate the latest achievements of that company. INLEGMASH invariably brings approximately the same results year after year. Judging by the visitor turnout on the first day, we believe it was very busy. We are hoping to see more visitors tomorrow and the day after tomorrow."

IHSAN MOKANOGLU

**MANAGING DIRECTOR,
EFFE**

"Why is this exhibition so important to us? Because it offers plenty of opportunities to meet with potential clients and spend quality time with old ones. If we are not here, if we choose not to participate, they may think their good business partner is not here because it does not care about them. They may think it does not care about the Russian market. No, we are here and we will keep working for new clients and existent, long-standing, esteemed clients."

ALEXANDER BRONEVITSKY

**SALES DIRECTOR,
NISSA**

"Compared to last year, this exhibition has many more exhibitors and the stands are larger and more substantive. We have also tried to enlarge the space of our stand, the number of exhibits, and the number of invited participants this year. We are happy to grow together with the exhibition and to see the exhibition growing year after year. This is the central exhibition for the textile industry. This is obvious, at least, to us. I mean we prefer this exhibition to all other events."
